The first day started with getting to know each other activities and teambuilding and followed with presentation of the project, general presentation of the guide we created so far and working sessions on inclusion, parenthood, online education and integration.

They shared with us their experience and the activities they develop through the employment center for people with disabilities that they manage.

We closed the day with final evaluation and Certificates' Ceremony. It was a day full of emotions and conclusions over the learning journey we've all been through for the last five days.
