

NEED FOR LEAD

Newsletter - Number 4 / April 2024

REMEMBER WHO WE ARE?!

- The leading partner of the project is TERRA TECH Förderprojekte eV, a non-governmental organization based in Germany, which has been involved since 1986 primarily in humanitarian aid, emergency relief, and development projects

- Clictic is a training institution in the field of digital technology, whose main activity is to provide services to educational centers, public institutions, and businesses

- Our partner from Romania, Asociatia Nevo Parudimos, is a non-profit, non-political organization founded in 2008 by a group of teachers, Roma activists, and Roma students in southwestern Romania.

- Association Co-Efficient, our partner from Hungary, was founded in 2010 to promote non-formal learning, innovative community services, and a new mindset in youth and social work

- Asociacion Juvenil Almenaras from Spain aims to involve young people, especially those with fewer opportunities, and professionals in the social field to develop their ideas in an international context

FINAL TRANSNATIONAL MEETING - BUDAPEST HUNGARY

Between 31st of March to 3rd of April, 2024 we had in Budapest our 4th and final transnational partnership meeting in the Need for Lead project. The host was our partner from Hungary - Együttható.

Our objective during the meeting was to review the remaining tasks and finalize dissemination strategies as we approach the conclusion of our two-year-long journey together.

PROJECT RESULTS ARE READY

After 2 hard working years we are happy to share our project results:

The online guide on mental adaptation is available [for downloads](#) in all partner's national languages and English from the Need for Lead project [website](#):

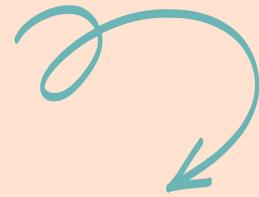

Also, the "Need for lead' Training on online employment for family members and parents of people with disabilities" is available to be followed and completed on the designated platform:

<https://courses.needforlead.eu>

As part of the project results, this e- training is aimed to develop a new methodology that allows the partner consortium to produce, organize and encourage new ideas and adult individuals to develop themselves personally and professionally. A new methodology becomes the funnel that transforms ideas into tangible real results. The training comprises entrepreneurial, digital, creative enhancement resources, which are available online in all partner languages.
